

Valley® Spinner™

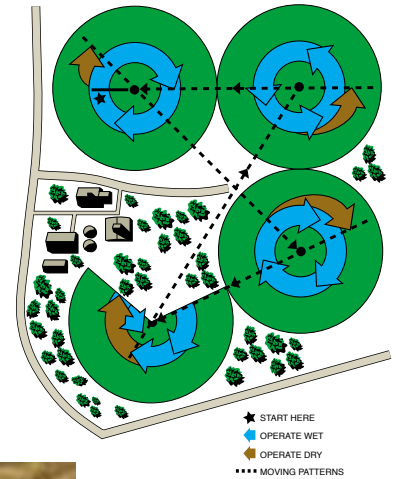

A Water-Driven, Small Field Solution

The Valley® Spinner offers big advantages in 3 hectare (7.5 acre) fields or less

Designed to address the needs of growers with small fields or limited access to electricity, the Valley Spinner offers all the structural and mechanical advantages of Valley's superior center pivot irrigation in a single span and tower driven by water pressure. The Valley Spinner gives growers the ability to turn small pieces of ground, such as the corners of a center pivot irrigated field, into productive fields that contribute toward increased yield and profitability.

Center drive powered by the spinner mechanism.

Features	Benefits
One span with overhang	Fits easily into small fields; provides up to 3 hectares (7.5 acres) of coverage
Hydraulically driven	No electrical installation needed , saves energy costs
Low-pressure requirement (43 PSI/3 Bars min.)	Reduces pumping cost.
Retrofit Kits	Works with all span lengths and can be retrofitted to used spans (including competitive equipment)
Any drop, spray available	Efficient water-saving technologies
Used on fields with 3% slope or less	Allows for the most uniform water distribution
Options	Benefits
Two- or four-wheel EZ tow	Moves easily between different sites
Span diameter options	Available in 5" or 6 5/8" spans
Span length options	Model 8120 5" & 6 5/8" - 43.37 m (142.3'), 49.18 m (161.2'), 54.86 m (180.0'), 60.63 m (198.9') Model 8000 6 5/8" - 115', 135', 140', 160', 180', 184', 204
Tire options	Available in 11.2 x 24 and 14.9" x 24"
Overhang Options	
6 5/8" overhang lengths	11.03 m (36.2'), 16.7 m (54.8'), 19.36 m (63.6'), 25.08 m (89.3')
5" overhang lengths	5.84 m (19.2), 8.68 m (28.5), 17.04 m (55.9'), 22.56 m (74.0')
